| AUTHOR

After 20 billion dollars in transactions, international success across the world, and a career of speaking truth to the powerful and empowering the disenfranchised Ziad Abdelnour has created a book that defines how to thrive in the current entrepreneurial and VC landscape.

Start Up Saboteurs shows entrepreneurs how to create real wealth by abandoning their limited thinking, eliminating boundaries, and stop defining the outcome.

The main goal of Start-Up Saboteurs is to inspire entrepreneurs to create their own wealth, not for the sake of wealth alone, but for the sake of becoming free and independent too.

This book was written for investors, business people, and entrepreneurs that need to navigate the troubled geopolitical waters of the post-crisis world. Abdelnour offers several solutions, including looking at the world anew and understanding that the federal government's primary objective is to promote the creation of an environment conducive to the creation of wealth.
